

22 December 2008

**Novera Energy plc ('Novera' or the 'Company')
Bullamoor Wind Farm into planning**

Novera, a leading independent UK renewable energy company, is pleased to announce that it has submitted its eleventh wind site planning application in little over two years.

The latest application for the four-turbine Bullamoor Wind Farm was made to Hambleton District Council last week. The site has an anticipated capacity of 10-12MW and is located approximately 2km east of Brompton in North Yorkshire.

David Fitzsimmons, CEO of Novera, said: "We are delighted to have submitted this latest wind farm into the planning process, maintaining the momentum of our wind portfolio, despite challenging economic times.

"Of the eleven applications, the 30MW Lissett Airfield is under construction and two sites with a combined capacity of up to 73MW are consented. Looking forward to 2009, we expect to receive planning decisions on the remaining eight sites now in planning and to submit further applications during the course of the year."

Novera's wind portfolio also includes the 15MW Mynydd Clogau Wind Farm in mid-Wales which has been in production since January 2006.
